

# RELATIONSHIP BETWEEN CLINICAL PHARMACIST AND OTHER MEDICAL STAFF MEMBERS

- ❖ Consult with the patient's physicians and other health care providers in selecting the medication therapy that best meets the patient's needs and contributes effectively to the overall therapy goals.

- ❖ **Clinical pharmacists and physicians:**  
Clinical pharmacists participate in ward rounds with physicians and provide their suggestions or recommendations wherever needed. The physicians prescribe medicines and the pharmacist checks the prescription to ensure rational use of drugs.

- ❖ **Clinical pharmacists and nurse :**  
A nurse give valuable information to pharmacist regarding patient condition which would aid a pharmacist in optimizing therapeutic plan as per patient needs.

- ❖ **Clinical pharmacists and Medication Safety Officer:**  
Works with the Medication Safety Officer to design systems and procedures that aim to prevent medication errors and increase medication safety in his/her specialty area.

- ❖ **Clinical pharmacists and students**  
Provides mentorship for Pharmacy staff, students and residents.
