INTRODUCTION

INTRODUCTION

*Since **1945** some countries have pursued global interests by building and maintaining various alliances, economic institutions, security organizations, political and liberal norms, and other tools. All together collectively is known as the **international order**.*

2.

DEFENITION

DEFENITION

- International means: the arrangement of people or things in relation to each other according to a particular sequence, pattern, or method.
- Order means: Existing, occurring, or carried on between nations.
- So together International order: is the pattern of activity that sustains the elementary goals of society'

CONCLUSION

CONCLUSION

The primary reason that we and others are focusing attention on the international order today is because it is perceived to be at risk and interests served by the order might also be at risk:

1. some leading states that see many components of the order as designed to constrain their power,
2. volatility from failed states or economic crises.
3. shifting domestic politics in an era of slow growth and growing inequality.
